DAV Students across the country participate in the Olympiad in order to excel in the subjects of Science, Mathematics and ICT. Today our world is highly dependent on Science and IT, and the dependency is only growing by the day. Our students, who will become leaders of tomorrow, get an opportunity to analyse their skills and prepare for the future with these exams. By identifying young genius and train their minds and skill at the right age in the right way. The training brings about a transformation to the classroom approach and makes Science and IT interactive, innovative and more practical for our modern generation.

In last couple of years students of DAV have shown enthusiasm, keenness and dedication in attempting the Olympiad. The growing number of students, every year shows the popularity of competition.

Technology is evolving day by day. Every year we try to make the implementation better than before.
